- B. Rocky Mt. Hydroelectric Plant –Missy explained the tour is June 14, 2023 at 10:00 and the board has received an invitation.
- C. Enterprise Corner – GRAD Certification – Missy Kendrick explained that the development authority is pursuing GRAD Certification for Enterprise Corner because the state shows favorability to GRAD sites. The designation confirms that the site is clean of any pollutants, historic structures, or endangered species and is ready for development.
- D. Battey Business Complex
  1. GovDeals.com – JR Davis explained that several items have sold for more than anticipated. A boiler sold for \$5,600 and shelves sold for \$2,100. Davis is going to place more items for sale on the website.
  2. EPA and HUD Grants – Environmental assessment work is happening now on asbestos and lead-based paint and then ground-penetrating radar will be performed next. Once assessment is

complete, then the HUD Grant funds can be used for demolition which is a reimbursement process.

- E. Grant Writer/Administrator Job Posted – Missy explained she will be submitting an RFP for a grant administrator.
- F. Verizon Tower Lease – Missy explained the current leases on the cell tower on Turkey Mountain Road will expire in 2026 so she is negotiating a new lease on the tower in the North Floyd Industrial Rail Site.
- G. Extension of Prosperity Way – Missy explained that the extension of Prosperity Way over the gas lines will make the parcel more marketable for prospects because they view the gas lines as an obstacle to development. Once the road is extended, it may be possible to access even more of the property than just the 52-acre tract.
